

VACCINE FOR THE PREVENTION AND TREATMENT OF ALZHEIMER'S AND AMYLOID RELATED DISEASES

ABSTRACT OF THE DISCLOSURE

The present invention relates to a stereochemically based “non-self” antigen vaccine for the prevention and/or treatment of Alzheimer’s and other amyloid related diseases. The present invention provides a vaccine for the prevention and treatment of Alzheimer’s and other amyloid related diseases, which overcomes the drawbacks associated with using naturally occurring peptides, proteins or immunogens.
